

SEEC Fun Friday Jeopardy Instructions

1. Open the Fun Friday Jeopardy Power Point,
 1. Click on Slide Show
 1. Select From the “From Beginning”
2. This is considered your Home Screen; on your home screen you will be able to select which point value of each category you want to select.
3. **Before beginning the facilitator may want to set a time limit for players when answering each question.**
4. Select a point value box, once you click on that box, the screen will take you to a statement, (for example “click on Conflict Management for 300)
 1. Read the statement or question to the player, before clicking again, Have the player think of a possible answer, or word association to that statement.
 1. In Jeopardy answers need to be stated in the form of a question. **For example; What is (insert answer?)**

Once an answer is given by the player, the facilitator can go ahead and click on the screen again. **On this screen is your answer.**
6. **Keeping score**
 1. If the answer is correct, then the player earns the points associated with the box they selected. **(for example, if you Clicked on Relationships for 300, and got the answer correct, then your score is 300 points.)**
7. In the bottom right corner of each answer slide is an image of a house. Click on the “house” and it will return you back to your Home Screen.
8. Once a question is selected, that question is not available for selection again. The point value will change colors helping you know which questions are left.
9. Repeat Steps #4 - #7 until all questions have been answered. Have Fun!
