

# Social Story App

Available on Apple and Android products

# What is a social story?

- A **social story** is an individualized short story that depicts a social situation that someone with Autism may encounter
- Social situations can include:
  - How to behave at work/in the community
  - Physical behaviors
  - What to do when you encounter a problem
  - Social etiquette (how to introduce yourself)

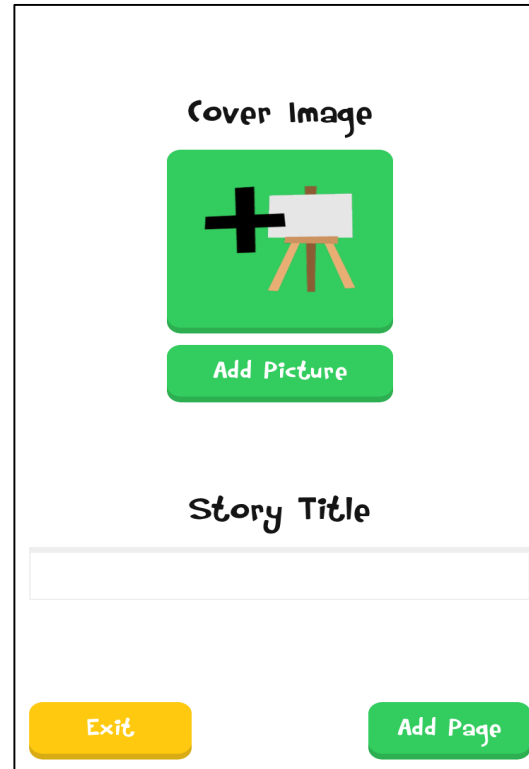

# How does Social Story™ App work?

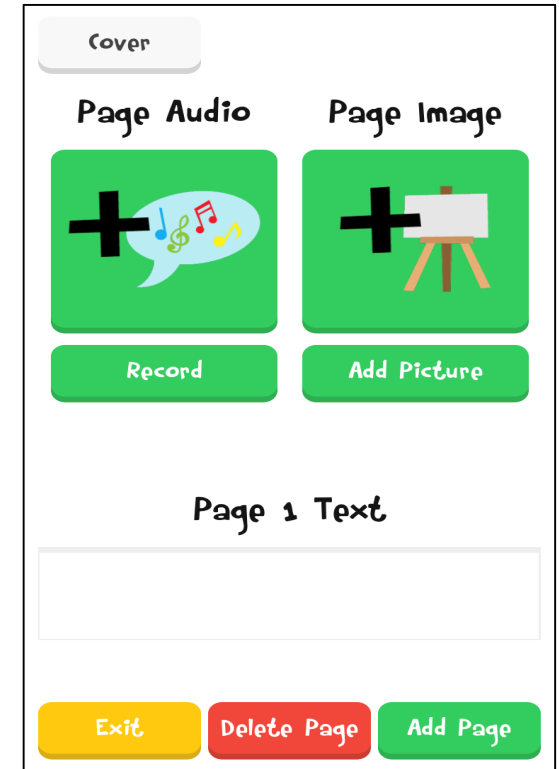

Once you open Social Story™ you will see this screen.

You can choose from existing stories or create your own. Some may cost up to \$5.

If you create your own, you can name the story what you want and upload a photo

Create as many pages as it takes to complete your Social Story™. You can add your own voice or someone else's. When it comes to choosing photos, real photos are best!
